**Full name**

Dagmar Fikken

**Email address**

**Phone number**

**Postal address**

**I am submitting on behalf of an organisation**

No

**My preferred option to address the under-recovery of costs from resource consent applications is to...**

Keep charge-out rates the same and make up shortfall from general rates reserve

**Tell us why this is your preferred option**

As an owner of a small family owned and operated farm, this will be a disproportionate big burden on us. For a consent for our 400 cow farm we would have to pay the same costs as a 4000 cow corporate farm. This is already the case now, but the cost will obviously get even higher. I suppose there is no drop in general rates on offer? Family farms are driven out of business by ever increasing compliance costs, only the big corporates can survive. Is that what you want for Canterbury?
