

# Planting Plan TEMPLATE

## Applicant(s) details

Name: \_\_\_\_\_

Phone: \_\_\_\_\_ Email: \_\_\_\_\_

## Watercourse

Name: \_\_\_\_\_

---

## Details of proposed work

Please identify the details of the proposal including, but not limited to the following elements:

### Bank being planted

☐ True Left    ☐ True Right    ☐ Both

**Advice Note:** The true left and true right is based on the direction of flow. The true right bank or side is always on the right-hand side of the direction in which the water is flowing i.e., facing downstream, and the left bank is always on the left-hand side facing downstream.

### Pre-planting site preparation

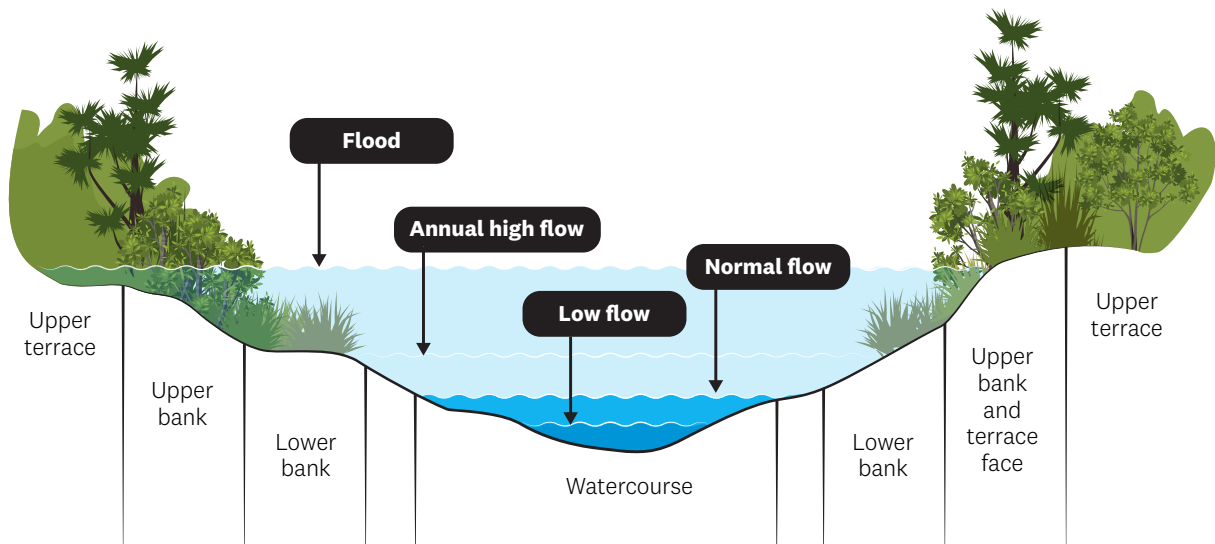

Will there be removal of vegetation to support pre-site preparation?

If yes, please give details including but not limited to:

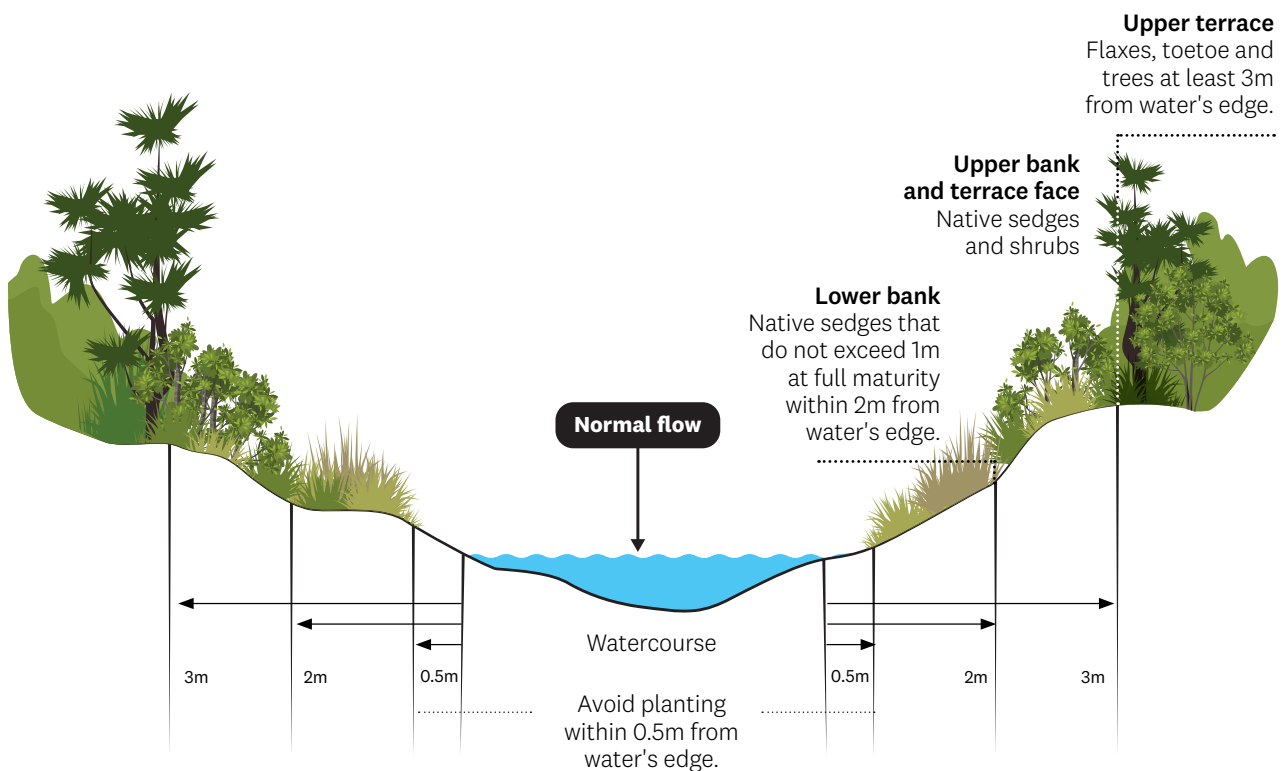

- The method of removal
  - ☐ If using mechanical removal, include any machinery to be used and include any areas of hand removal
  - ☐ If using chemical removal, specify any spot spraying methodology
- Where on the bank removal is required for each methodology
- Disposal plan for debris/removed vegetation

# Watercourse feature diagrams

## PLANTING ZONES AND SEASONAL FLOWS

## PLANTING SETBACKS

---

## TIP

*Set fences back from the annual high flow height. This may be quite different from the low flow height.  
Please identify the species and numbers of each species (if known) to be planted in each planting zone.*

### Lower Bank

---

---

---

---

---

### Upper Bank

---

---

---

---

---

### Terrace

---

---

---

---

---

---

## Maintenance

What is the nature of intended maintenance?

- Mechanical weed removal?
- Spot spraying?
- Replacement of dead plants?
- Mulching or weed mats?
- How long is maintenance proposed?
- Planting guards

---

---

---

---

---

---

---

---

---

# Access

Please detail how unimpeded access to the watercourse for maintenance purposes will be maintained under this proposal:

- Has the Canterbury Regional Council (CRC) Area Supervisor or Area Engineer advised which side the watercourse is accessed from?
- Access Gate?
- Access Strip?

# Map

Please attach a coloured map/aerial photograph of the property (Google Maps or Canterbury Maps) and clearly identify the features below. These features can be hand drawn onto your map:

## Extent of Planting

Please outline where planting is proposed.  
Ensure that any setbacks from structures or other features are clearly identified.

## Fencing and Access

Please illustrate any fencing – both existing and/or proposed.  
Please identify accessways – this includes gates in your boundary, internal fences, and fence lines beside watercourses.
