

IN THE MATTER of the Resource Management Act 1991

AND

IN THE MATTER of the Environment Canterbury (Temporary Commissioners and Improved Water Management) Act 2010

AND

IN THE MATTER of proposed Plan Change 3 to the Waitaki Catchment Water Allocation Regional Plan

## **REPORT AND RECOMMENDATIONS**

### **OF THE**

### **HEARING COMMISSIONERS**

### **APPENDIX A**

### **Schedule of Recommended Decisions**

Hearing Commissioners:

Gordon Whiting

Edward Ellison

Andrew Fenemor

# Hearing Commissioners’ Recommendations on Submissions

## Interpretation of Schedule

In addition to the 549 primary submissions raising the points listed in this schedule, the CRC received eight further submissions in support of, or opposition to, primary submissions. To the extent that the points raised by further submissions are not identified directly in this schedule, we recommend that they are accepted or rejected according to our recommendations for accepting or rejecting the corresponding submission points.

Further submission points that either support or oppose a primary submission are shown in italics and are grouped immediately below the primary submission point.

### General

Name	Point ID	Support/Oppose	Summary of Decision Requested	Recommendation	Reason for Recommendation
Alliance Party	<a href="#">PC3 WCWARP -1393</a>	Oppose	Reject Plan Change 3 in its entirety but particularly changes to provisions that have not yet been implemented because of the consent held by the operator of the Waitaki Dam	Reject	We are not persuaded that to reject the Plan Change would be a more effective and reasonably practicable option for achieving the objectives of the Waitaki Catchment Water Allocation Regional Plan, and for giving effect to the relevant superior instruments.
Ban 1080	<a href="#">PC3 WCWARP -1129</a>	Oppose	Reject Plan Change 3 in its entirety but particularly changes to provisions that have not yet been implemented because of the consent held by the operator of the Waitaki Dam		
Dirt Doctor NZ	<a href="#">PC3 WCWARP -3448</a>	Oppose	Oppose entire plan change		
Engineers for Social Responsibility	<a href="#">PC3 WCWARP -3088</a>	Oppose	Reject Plan Change 3 in its entirety but particularly changes to provisions that have not yet been implemented because of the consent held by the operator of the Waitaki Dam		
Federated Farmers Combined Canterbury Branch	<a href="#">PC3 WCWARP -3295</a>	Support	Retain whole plan change 3 as a package, subject to amendment sought.	Accept in part	We have received a variety of submissions on Plan Change 3 seeking various amendments to the provisions of the plan change. Where we consider those amendments are the most effective and reasonably practicable method for achieving the objectives of the Waitaki Catchment Water Allocation Regional Plan and for giving effect to the superior instruments, we have accordingly recommended amendments to the provisions of Plan Change 3 as notified.
Gert C van't Klooster	<a href="#">PC3 WCWARP -3290</a>	Support	Retain Plan Change 3 as notified		
Hunter Downs Development Company Limited	<a href="#">PC3 WCWARP -3231</a>	Support	The amendments to policies and rules provided for the reliability of supply to existing irrigation consents and new irrigation consents via the provisions of water under Rules 2 and 7 are generally supported <b>provided</b> they are implemented as a complete package. The individual component parts of the plan change cannot occur in isolation (and to the extent it does it is opposed by HDDCL). Specifically, amendments to Rule 7 and the provision of water downstream of Waitaki Dam for downstream abstractive users reducing from 80 cubic metres per second to a 32 cubic meters per second peak is not supported if existing irrigator's minimum flows are increased to 150 cubic metres per second.	Accept in part	We have received a variety of submissions on Plan Change 3 seeking various amendments to the provisions of the plan change. Where we consider those amendments are the most effective and reasonably practicable method for achieving the objectives of the Waitaki Catchment Water Allocation Regional Plan and for giving effect to the superior instruments, we have accordingly recommended amendments to the provisions of Plan Change 3 as notified.
Irricon Resource Solutions Limited (Agent)	<a href="#">PC3 WCWARP -3250</a>	Support	Support the whole of the plan change, subject to amendments sought.	Accept in part	We have received a variety of submissions on Plan Change 3 seeking various amendments to the provisions of the plan change. Where we consider those amendments are the most effective and reasonably practicable method for achieving the objectives of the Waitaki Catchment Water Allocation Regional Plan and for giving effect to the superior instruments, we have accordingly recommended amendments to the provisions of Plan Change 3 as notified.
Irricon Resource Solutions Limited (Agent)	<a href="#">PC3 WCWARP -3253</a>	Oppose	Clarify why the words "and tributaries" were not added to other Lower Waitaki water bodies such as the Hakataramea River	Reject	A general request which does not give precise details of the amendment requested.

Name	Point ID	Support/Oppose	Summary of Decision Requested	Recommendation	Reason for Recommendation
Irrigation New Zealand Inc	<a href="#">PC3 WCWARP -3300</a>	Support	Retain all of the provisions of Plan Change 3 (PC3), with the exception of the relief sought in this submission, on the basis they are an interrelated package that provide for a reliable water supply to existing irrigators. Any changes made to the package without other corresponding changes being made are not supported.	Accept in part	<p>We have received a variety of submissions on Plan Change 3 seeking various amendments to the provisions of the plan change. Where we consider those amendments are the most effective and reasonably practicable method for achieving the objectives of the Waitaki Catchment Water Allocation Regional Plan and for giving effect to the superior instruments, we have accordingly recommended amendments to the provisions of Plan Change 3 as notified.</p> <p>In addition, we advise that we have adopted a flow and level regime for the reasons set out in our recommendation, and in the section 42A report. We have reviewed the provisions in the light of all requests made, with a view to accepting those that would (having regard to the effectiveness and efficiency of the body of provisions), be most appropriate for achieving the objectives of the Waitaki Catchment Water Allocation Regional Plan (taking into account the benefits and costs of the environmental, economic, social and cultural effects anticipated from the implementation of the provisions and risks of acting or not acting), and contribute to a coherent body of provisions that would assist the CRC to carry out its functions in attaining the purpose of the RMA. In the result, we recommend some of the amendments requested and do not recommend others. Without tediously listing each, we consider that those we do not recommend would not contribute to making the provision a coherent measure that would assist the CRC as intended. The amendments we recommend are evident in the marked-up version of the Plan in Appendix B to this report.</p>
Nga Rūnanga and Te Rūnanga O Ngāi Tahu	<a href="#">PC3 WCWARP -3267</a>	Support	Retain the provisions of the plan as notified except where changes have been requested.		
North Otago Irrigation Company	<a href="#">PC3 WCWARP -3389</a>	Support	For the avoidance of doubt, NOIC supports the plan change provisions on the basis that they are an interrelated package, the operation of which as a package is essential to effectively and efficiently provide for the reliability of supply to existing irrigation schemes and for new irrigation consents. For instance, any increase in the minimum flows for existing irrigation without other corresponding changes (for instance, to Rule 7) would not be supported as this would impact on the reliability of supply to existing irrigators.		
<i>Central South Island Fish and Game</i>	<a href="#">FPC3 WCWARP -24</a>	<i>Oppose</i>			
Waimate District Council	<a href="#">PC3 WCWARP -3269</a>	Support	Approve Plan Change 3 in its entirety	Reject	<p>We have received a variety of submissions on Plan Change 3 seeking various amendments to the provisions of the plan change. Where we consider those amendments are the most effective and reasonably practicable method for achieving the objectives of the Waitaki Catchment Water Allocation Regional Plan and for giving effect to the superior instruments, we have accordingly recommended amendments to the provisions of Plan Change 3 as notified.</p>
Waitaki District Council	<a href="#">PC3 WCWARP -3271</a>	Support	Adopt Plan Change 3 without amendment		
Croydon Paton	<a href="#">PC3 WCWARP -2979</a>	Oppose	Investigate use of peak water storage for irrigation. Increase the use of alternative resources such as solar and wind for electricity. Leave the river alone.	Reject	<p>Some of the amendments sought in this submission point are beyond the scope of Plan Change 3.</p> <p>With respect to those parts of the submission addressing the flow regime for the Waitaki River, we have adopted a flow and level regime for the reasons set out in our recommendation, and in the section 42A report. We have reviewed the provisions in the light of all requests made, with a view to accepting those that would (having regard to the effectiveness and efficiency of the body of provisions), be most appropriate for achieving the objectives of the Waitaki Catchment Water Allocation Regional Plan (taking into account the benefits and costs of the environmental, economic, social and cultural effects anticipated from the implementation of the provisions and risks of acting or not acting), and contribute to a coherent body of provisions that would assist the CRC to carry out its functions in attaining the purpose of the RMA. In the result, we recommend some of the amendments requested and do not recommend others. Without tediously listing each, we consider that those we do not recommend would not contribute to making the provision a coherent measure that would assist the CRC as intended. The amendments we recommend are evident in the marked-up version of the Plan in Appendix B to this report.</p>
Linn Koevoet	<a href="#">PC3 WCWARP -3298</a>	Oppose	Oppose Plan Change 3 entirely	Reject	<p>We are not persuaded that to reject the Plan Change would be a more effective and reasonably practicable option for achieving the objectives of the Waitaki Catchment Water Allocation Regional Plan, and for giving effect to the relevant superior instruments.</p>
Dr Carolyn Stringer	<a href="#">PC3 WCWARP -2720</a>	Oppose	Oppose entire Plan Change		
Mr Kenneth Baker	<a href="#">PC3 WCWARP -2390</a>	Oppose	Oppose entire Plan Change		
Ash Costar	<a href="#">PC3 WCWARP -3471</a>	Oppose	Oppose Plan Change 3 entirely		
Mr Brian McCarthy	<a href="#">PC3 WCWARP -2334</a>	Oppose	Oppose entire Plan Change		
Mr Daniel Allan	<a href="#">PC3 WCWARP -3374</a>	Oppose	Oppose Plan Change 3 entirely		
Mr H R B Zwies	<a href="#">PC3 WCWARP -3321</a>	Oppose	Oppose Plan Change 3		

Name	Point ID	Support/Oppose	Summary of Decision Requested	Recommendation	Reason for Recommendation
Mr Hamish Ford	<a href="#">PC3 WCWARP -3294</a>	Oppose	Oppose Plan Change 3 entirely		
Mr Stuart Allen Sutherland	<a href="#">PC3 WCWARP -3297</a>	Oppose	Oppose Plan Change 3 entirely		
Ms Cheryl Taylor	<a href="#">PC3 WCWARP -2331</a>	Oppose	Oppose entire Plan Change		
Ms Carol Hollebon	<a href="#">PC3 WCWARP -2400</a>	Oppose	Oppose entire Plan Change		
Mr Steve Bryant	<a href="#">PC3 WCWARP -2926</a>	Oppose	Oppose reduction in minimum flows	Reject	We have adopted a flow and level regime for the reasons set out in our recommendation, and in the section 42A report. We have reviewed the provisions in the light of all requests made, with a view to accepting those that would (having regard to the effectiveness and efficiency of the body of provisions), be most appropriate for achieving the objectives of the Waitaki Catchment Water Allocation Regional Plan (taking into account the benefits and costs of the environmental, economic, social and cultural effects anticipated from the implementation of the provisions and risks of acting or not acting), and contribute to a coherent body of provisions that would assist the CRC to carry out its functions in attaining the purpose of the RMA. In the result, we recommend some of the amendments requested and do not recommend others. Without tediously listing each, we consider that those we do not recommend would not contribute to making the provision a coherent measure that would assist the CRC as intended. The amendments we recommend are evident in the marked-up version of the Plan in Appendix B to this report.
Ms Karen Driver	<a href="#">PC3 WCWARP -2960</a>	Oppose	Investigate restoration works for restoring water quality before any further changes are investigated, and the reasons for the current poor state identified. If low flow rate is a factor the minimum rate should be increased and not decreased.	Reject	<p>Parts of this submission point are general in nature and are rejected on the basis that it does not give precise details of the relief requested.</p> <p>With respect to the flow regime, we have adopted a flow and level regime for the reasons set out in our recommendation, and in the section 42A report. We have reviewed the provisions in the light of all requests made, with a view to accepting those that would (having regard to the effectiveness and efficiency of the body of provisions), be most appropriate for achieving the objectives of the Waitaki Catchment Water Allocation Regional Plan (taking into account the benefits and costs of the environmental, economic, social and cultural effects anticipated from the implementation of the provisions and risks of acting or not acting), and contribute to a coherent body of provisions that would assist the CRC to carry out its functions in attaining the purpose of the RMA. In the result, we recommend some of the amendments requested and do not recommend others. Without tediously listing each, we consider that those we do not recommend would not contribute to making the provision a coherent measure that would assist the CRC as intended. The amendments we recommend are evident in the marked-up version of the Plan in Appendix B to this report.</p>
Mr Robert Hood	<a href="#">PC3 WCWARP -2498</a>	Oppose	Reject Plan Change and retain minimum flow of 150 cumecs.	Reject	<p>We are not persuaded that to reject the Plan Change would be a more effective and reasonably practicable option for achieving the objectives of the Waitaki Catchment Water Allocation Regional Plan, and for giving effect to the relevant superior instruments.</p> <p>With respect to the flow regime, we have adopted a flow and level regime for the reasons set out in our recommendation, and in the section 42A report. We have reviewed the provisions in the light of all requests made, with a view to accepting those that would (having regard to the effectiveness and efficiency of the body of provisions), be most appropriate for achieving the objectives of the Waitaki Catchment Water Allocation Regional Plan (taking into account the benefits and costs of the environmental, economic, social and cultural effects anticipated from the implementation of the provisions and risks of acting or not acting), and contribute to a coherent body of provisions that would assist the CRC to carry out its functions in attaining the purpose of the RMA. In the result, we recommend some of the amendments requested and do not recommend others. Without tediously listing each, we consider that those we do not recommend would not contribute to making the provision a coherent measure that would assist the CRC as intended. The amendments</p>
Mr Brian, Lindsay Turner	<a href="#">PC3 WCWARP -3190</a>	Oppose	Do not reduce the minimum flow and retain the requirement on the operator of the Waitaki Dam to provide water for downstream abstraction. Retain Rule 7 in the operative Plan.		

Name	Point ID	Support/Oppose	Summary of Decision Requested	Recommendation	Reason for Recommendation
					we recommend are evident in the marked-up version of the Plan in Appendix B to this report.
Mr Robert John Anderson	<a href="#">PC3 WCWARP -3320</a>	Oppose	Comments on section 32: Seek all possible solutions before abstracting water e.g. buffer ponds, water-tight linings of irrigation races, smart irrigation techniques. Increase efforts to control predation (preferably without poisons).	Reject	A request which does not give specific details of the amendments sought to the plan change.
Mr Mark Smith	<a href="#">PC3 WCWARP -2558</a>	Oppose	Retain minimum flow and reject Plan Change.	Reject	We have adopted a flow and level regime for the reasons set out in our recommendation, and in the section 42A report. We have reviewed the provisions in the light of all requests made, with a view to accepting those that would (having regard to the effectiveness and efficiency of the body of provisions), be most appropriate for achieving the objectives of the Waitaki Catchment Water Allocation Regional Plan (taking into account the benefits and costs of the environmental, economic, social and cultural effects anticipated from the implementation of the provisions and risks of acting or not acting), and contribute to a coherent body of provisions that would assist the CRC to carry out its functions in attaining the purpose of the RMA. In the result, we recommend some of the amendments requested and do not recommend others. Without tediously listing each, we consider that those we do not recommend would not contribute to making the provision a coherent measure that would assist the CRC as intended. The amendments we recommend are evident in the marked-up version of the Plan in Appendix B to this report
Karen Palmer	<a href="#">PC3 WCWARP -2451</a>	Oppose	I/we oppose the proposed Plan Change 3 to the Waitaki River Water Allocation Regional Plan ('the Plan')	Reject	We are not persuaded that to reject the Plan Change would be a more effective and reasonably practicable option for achieving the objectives of the Waitaki Catchment Water Allocation Regional Plan, and for giving effect to the relevant superior instruments.
Noel Velenski	<a href="#">PC3 WCWARP -2579</a>	Oppose	I/we oppose the proposed Plan Change 3 to the Waitaki River Water Allocation Regional Plan ('the Plan').		
Jenny Chapple	<a href="#">PC3 WCWARP -2971</a>	Oppose	We need time, research, active pursuit of alternatives so that this precious river retains its natural character and biota.	Reject	A general request which does not give precise details of amendments requested.
Glenavy Fishing Camp	<a href="#">PC3 WCWARP -2942</a>	Oppose	Reject Plan Change 3 in its entirety but particularly changes to provisions that have not yet been implemented because of the consent held by the operator of the Waitaki Dam	Reject	<p>We are not persuaded that to reject the Plan Change would be a more effective and reasonably practicable option for achieving the objectives of the Waitaki Catchment Water Allocation Regional Plan, and for giving effect to the relevant superior instruments.</p> <p>With respect to the particular relief sought regarding the resource consent held by the operator of the Waitaki Dam, we have adopted a flow and level regime for the reasons set out in our recommendation, and in the section 42A report. We have reviewed the provisions in the light of all requests made, with a view to accepting those that would (having regard to the effectiveness and efficiency of the body of provisions), be most appropriate for achieving the objectives of the Waitaki Catchment Water Allocation Regional Plan (taking into account the benefits and costs of the environmental, economic, social and cultural effects anticipated from the implementation of the provisions and risks of acting or not acting), and contribute to a coherent body of provisions that would assist the CRC to carry out its functions in attaining the purpose of the RMA. In the result, we recommend some of the amendments requested and do not recommend others. Without tediously listing each, we consider that those we do not recommend would not contribute to making the provision a coherent measure that would assist the CRC as intended. The amendments we recommend are evident in the marked-up version of the Plan in Appendix B to this report</p>

### Policy 12(g) (renumbered as Policy 12(ga) in the Plan Provisions as recommended by the Hearing Panel)

Name	Point ID	Support/Oppo se	Summary of Decision Requested	Recommendation	Reason for Recommendation
Central South Island Fish and Game	<a href="#">PC3 WCWARP -3322</a>	Support	Retain as notified	Accept in part	We adopt the recommendations and reasons set out in the section 42A Report, and have made additional changes in response to other submissions.
Forest and Bird	<a href="#">PC3 WCWARP -3528</a>	Support in Part	Add the following words: Considering opportunities to enhance mahinga kai, <u>and the health of water bodies within the Waitaki Catchment,</u> provided that Te Runanga o Arowhenua, Te Runanga o Waihao and Te Runanga o Moeraki have been consulted.	Reject	We accept that the reservation of water for the purpose of augmenting surface water flows to Wainono Lagoon will give rise to beneficial environmental effects and is therefore appropriate, and recommend consequential changes to the provisions. However we do not consider the particular relief sought is necessary in the context of this policy.
Green Party	<a href="#">PC3 WCWARP -3248</a>	Oppose	Support reserving water but widen purpose to general environmental restoration purposes. Amend Policy 12(g) and Table 3 line xvii to give effect to the wider purpose.	Accept in part	We accept that the reservation of water for the purpose of augmenting surface water flows to Wainono Lagoon will give rise to beneficial environmental effects and is therefore appropriate, and recommend consequential changes to the provisions. With respect to the use of water for general environmental purposes, we are not persuaded that the amendment is appropriate.
Lower Waitaki River Management Soc Inc	<a href="#">PC3 WCWARP -3206</a>	Oppose	Submitter supports reserving water for general environmental enhancement, primarily within the Waitaki Catchment and for future generations but notes that specifying purpose for Mahinga kai will not provide for broader environmental enhancement because the definition of 'mahinga kai' does not exclude commercial use. Further, if the 10 cumecs is intended as an "Allocation for Tangata Whenua" to use as they wish, it should be described as such.	Accept in part	We accept that the reservation of water for the purpose of augmenting surface water flows to Wainono Lagoon will give rise to beneficial environmental effects and is therefore appropriate, and recommend consequential changes to the provisions. With respect to the use of water for general environmental purposes, we are not persuaded that the amendment is appropriate
<i>Waitaki Irrigators Collective</i>	<a href="#">FPC3 WCWARP -343</a>	<i>Oppose</i>			
Mr John Highton	<a href="#">PC3 WCWARP -3516</a>	Oppose	Give careful consideration to use of Waitaki water outside the catchment with particular attention to avoiding the spread of the didymo	Reject	A general request which does not give precise details of amendments requested.
Waitaki Irrigators Collective	<a href="#">PC3 WCWARP -3349</a>	Support	Retain as notified	Accept in part	We adopt the recommendations and reasons set out in the section 42A Report, and have made additional changes in response to other submissions.
Brian Turner	<a href="#">PC3 WCWARP -3193</a>	Oppose	Support reserving water but widen purpose to general environmental restoration purposes. Amend Policy 12(g) and Table 3 line xvii to give effect to the wider purpose.	Accept in part	We accept that the reservation of water for the purpose of augmenting surface water flows to Wainono Lagoon will give rise to beneficial environmental effects and is therefore appropriate, and recommend consequential changes to the provisions. With respect to the use of water for general environmental purposes, we are not persuaded that the amendment is appropriate

**Policy 46**

Name	Point ID	Support/Oppose	Summary of Decision Requested	Recommendation	Reason for Recommendation
Central South Island Fish and Game	<a href="#">PC3 WCWARP -3328</a>	Oppose	Amend to read: "up to a maximum of <del>80-32</del> <u>40</u> cubic metres per second".	Accept	In response to this and other submissions we are recommending amendments to the effect requested, for the reasons set out in the section 42A Report.
Hunter Downs Development Company Limited	<a href="#">PC3 WCWARP -3233</a>	Support	Retain as notified	Reject	We adopt the recommendations and reasons set out in the section 42A Report. Consequential changes are being recommended as appropriate. See also the separate narrative on this issue in the main text of this Report.
Irrigation New Zealand Inc	<a href="#">PC3 WCWARP -3306</a>	Support			With respect to the flow regime for the Waitaki River, we have adopted a flow and level regime for the reasons set out in our recommendation, and in the section 42A report. We have reviewed the provisions in the light of all requests made, with a view to accepting those that would (having regard to the effectiveness and efficiency of the body of provisions), be most appropriate for achieving the objectives of the Waitaki Catchment Water Allocation Regional Plan (taking into account the benefits and costs of the environmental, economic, social and cultural effects anticipated from the implementation of the provisions and risks of acting or not acting), and contribute to a coherent body of provisions that would assist the CRC to carry out its functions in attaining the purpose of the RMA. In the result, we recommend some of the amendments requested and do not recommend others. Without tediously listing each, we consider that those we do not recommend would not contribute to making the provision a coherent measure that would assist the CRC as intended. The amendments we recommend are evident in the marked-up version of the Plan in Appendix B to this report.

Nga Rūnanga and Te Rūnanga O Ngāi Tahu	<a href="#">PC3 WCWARP -3435</a>	Support in Part	Amend Policy 46 (ii) as follows:  Insert the following wording prior to clause (ii)  <u>...to meet the actual requirements of activities, which would not be met by the minimum flow of the environmental flow regime, the aggregate of...</u>  Add a new clause (d):  <u>the actual requirements for enhancing mahinga kai, being:</u>  (i) <u>Of exercising existing and new consents (at their points of taking) in the Lower Waitaki River provided for within the annual allocation for that activity; or</u> (ii) <u>In river flows in the Lower Waitaki River if the mahinga kai allocation is not taken or diverted.</u>  up to a maximum of <del>80</del> <del>32</del> <u>40</u> cubic metres per second	Accept in part	In response to this and other submissions we are recommending some amendments to the effect requested.
Waitaki Irrigators Collective	<a href="#">FPC3 WCWARP -334</a>	Part Support			
North Otago Irrigation Company	<a href="#">PC3 WCWARP -3397</a>	Support	Retain as notified	Reject	We adopt the recommendations and reasons set out in the section 42A Report. Consequential changes are being recommended as appropriate. See also the separate narrative on this issue in the main text of this Report.  With respect to the flow regime for the Waitaki River, we have adopted a flow and level regime for the reasons set out in our recommendation, and in the section 42A report. We have reviewed the provisions in the light of all requests made, with a view to accepting those that would (having regard to the effectiveness and efficiency of the body of provisions), be most appropriate for achieving the objectives of the Waitaki Catchment Water Allocation Regional Plan (taking into account the benefits and costs of the environmental, economic, social and cultural effects anticipated from the implementation of the provisions and risks of acting or not acting), and contribute to a coherent body of provisions that would assist the CRC to carry out its functions in attaining the purpose of the RMA. In the result, we recommend some of the amendments requested and do not recommend others. Without tediously listing each, we consider that those we do not recommend would not contribute to making the provision a coherent measure that would assist the CRC as intended. The amendments we recommend are evident in the marked-up version of the Plan in Appendix B to this report.
Waitaki Irrigators Collective	<a href="#">PC3 WCWARP -3354</a>	Support	Retain as notified		
Waitaki Independent Irrigators Inc	<a href="#">PC3 WCWARP -3522</a>	Support	Retain as notified		

## Policy 47

Name	Point ID	Support/Oppose	Summary of Decision Requested	Recommendation	Reason for Recommendation
Alliance Party	<a href="#">PC3 WCWARP -1397</a>	Oppose	Retain the current environmental flow regime including the operative Plan allocations and a minimum flow from the Waitaki Dam to the sea of 150 cumecs as an ecological bottom line	Reject	As a consequence of directed caucusing and/or discussion at the Hearing, further proposed changes were agreed between some parties and to the extent, and for the reasons set out in the s42A report and our narrative, we have adopted those recommended changes.
Ban 1080	<a href="#">PC3 WCWARP -1132</a>	Oppose	Retain the current environmental flow regime including the operative Plan allocations and a minimum flow from the Waitaki Dam to the sea of 150 cumecs as an ecological bottom line		
Central South Island Fish and Game	<a href="#">PC3 WCWARP -3329</a>	Oppose	Amend Policy 47 with an additional clause. ' <u>Any replacement consent will be limited to that area serviced by existing consent as identified at the time of original application and at a rate and annual volume consistent with efficient water use as determined by Policy 16 and Schedule 1</u> '.	Reject	We are not persuaded that the amendment requested would be a more effective and reasonably practicable option for achieving the objectives of the Waitaki Catchment Water Allocation Regional Plan, and for giving effect to the relevant superior instruments.
<i>Waitaki Irrigators Collective</i>	<a href="#">FPC3 WCWARP -345</a>	<i>Oppose</i>			
<i>Hunter Downs Development Company Limited</i>	<a href="#">FPC3 WCWARP -350</a>	<i>Oppose</i>			
Central South Island Fish and Game	<a href="#">PC3 WCWARP -3330</a>	Oppose	Amend paragraph 3 of the explanation commencing "The plan recognises" to read " <u>The plan recognises that there are forty consents in existence that were granted prior to the plan becoming operative in 2006. These are listed in Schedule 2. With the granting of new consents and the setting of the minimum flow 150m/3 /s from Waitaki Dam to the sea, modelling indicates that traditionally the reliability of water for these existing consent holders is reduced from about 99% to 94% dependent upon what priority, if any, is afforded to those existing consent holders over post Plan consent holders.</u> "	Reject	We are not persuaded that the amendment requested would be a more effective and reasonably practicable option for achieving the objectives of the Waitaki Catchment Water Allocation Regional Plan, and for giving effect to the relevant superior instruments.
<i>Waitaki Irrigators Collective</i>	<a href="#">FPC3 WCWARP -339</a>	<i>Oppose</i>			
<i>Hunter Downs Development Company Limited</i>	<a href="#">FPC3 WCWARP -352</a>	<i>Oppose</i>			
Forest and Bird	<a href="#">PC3 WCWARP -3537</a>	Oppose in Part	Delete paragraphs 3 and 4 of the explanation	Reject	We are not persuaded that the proposed amendment requested would be a more effective option for achieving the objectives of the Waitaki Catchment Water Allocation Regional Plan, and for giving effect to the relevant superior instruments.
Hunter Downs Development Company Limited	<a href="#">PC3 WCWARP -3234</a>	Support	Retain as notified.	Reject	We are not persuaded that retention of the policy as notified would be a more effective option for achieving the objectives of the Waitaki Catchment Water Allocation Regional Plan, and for giving effect to the relevant superior instruments.

## Rule 2

Name	Point ID	Support/Oppose	Summary of Decision Requested	Recommendation	Reason for Recommendation
Alliance Group Limited	<a href="#">PC3 WCWARP -3221</a>	Oppose	Amend Rule 2(4) to exempt municipal and industrial users and uses from the minimum flows set out in Table 3A.  Amend Rule as follows: Water taken or diverted from downstream of the Waitaki Dam, as authorised by consents referred to in Schedule 2 has the minimum flow set out in Table 3A, or that of the existing consent, <del>whichever is the higher</del> provided that: a. The amount of water taken as a percentage of the consented take complies with Table 3A b. In the event that the daily average flow of the Lower Waitaki River is at or below 150m³/s for ten consecutive days all <u>irrigation</u> takes must cease for a period of 48 hours c. All relevant provisions of Table 3B apply, except minimum flow. AND/OR add the following note: <u><i>Note: This rule does not apply to water taken for essential drinking, stock drinking water, maintaining firefighting capacity, and for the processing and storage of perishable produce.</i></u>	Accept in part	We accept that water for particular uses should be exempt from the requirements of Rule 2(4), however we are not persuaded that this should extend to the use of water for municipal and industrial uses.
Irricon Resource Solutions Limited (Agent)	<a href="#">PC3 WCWARP -3257</a>	Oppose	Amend Rule 2(2) to read: 'Water taken for essential drinking, stock drinking-water, maintaining firefighting capacity, <u>frost fighting</u> , and for the processing and storage of perishable produce is exempt from minimum flow and level and flow-sharing regimes.'	Reject	We are not persuaded that the amendment requested would be a more effective and reasonably practicable option for achieving the objectives of the Waitaki Catchment Water Allocation Regional Plan, and for giving effect to the relevant superior instruments
<i>Central South Island Fish and Game</i>	<a href="#">FPC3 WCWARP -23</a>	<i>Part Support</i>			
Central South Island Fish and Game	<a href="#">PC3 WCWARP -3331</a>	Oppose	Amend 2(4) (b) to read: 'In the event that the daily average flow of the Lower Waitaki River at <u>Kurow</u> is at or below 150m³ /s for <del>ten</del> <u>seven</u> consecutive days, <del>all takes exercise of all Schedule 2 takes</del> must cease for a period of 48 hours.'.  Amend by adding another clause: ' (d) Immediately following adoption of this Plan Change, the Regional Council will review, pursuant to section 68(7) of the RMA, all Schedule 2 consents to introduce or amend those conditions pertaining to minimum flows, restrictions on take during times of water shortage and seasonal water allocation limits.'	Reject	We are not persuaded that the amendment requested would be a more effective and reasonably practicable option for achieving the objectives of the Waitaki Catchment Water Allocation Regional Plan, and for giving effect to the relevant superior instruments.
<i>Alliance Group Limited</i>	<a href="#">FPC3 WCWARP -16</a>	<i>Oppose</i>			
<i>Waitaki Irrigators Collective</i>	<a href="#">FPC3 WCWARP -336</a>	<i>Oppose</i>			
Central South Island Fish and Game	<a href="#">PC3 WCWARP -3333</a>	Oppose	Submitter proposes an alternative flow regime. Refer submission for details.	Reject	We are not persuaded that the amendment requested would be a more effective and reasonably practicable option for achieving the objectives of the Waitaki Catchment Water Allocation Regional Plan, and for giving effect to the relevant superior instruments.

Hunter Downs Development Company Limited	<a href="#">PC3 WCWARP -3235</a>	Support	Retain Rule 2(4), Table 3 as publicly notified.	Accept in part	As a consequence of directed caucusing and/or discussion at the Hearing, further proposed changes were agreed between some parties and to the extent, and for the reasons set out in the s42A report and our narrative, we have adopted those recommended changes.
Irricon Resource Solutions Limited (Agent)	<a href="#">PC3 WCWARP -3255</a>	Support	Retain as notified	Accept in part	As a consequence of directed caucusing and/or discussion at the Hearing, further proposed changes were agreed between some parties and to the extent, and for the reasons set out in the s42A report and our narrative, we have adopted those recommended changes.
Kowhai Cottage	<a href="#">PC3 WCWARP -1864</a>	Oppose	Retain the current environmental flow regime including current Plan allocations and a minimum flow from Waitaki Dam to the sea of 150 cumecs.	Reject Reject	We are not persuaded that the operative provisions should be retained for the reasons given in our decision and the s42A report. See the separate narrative on this issue in the main text of the Report.
Lower Waitaki River Management Soc Inc	<a href="#">PC3 WCWARP -923</a>	Oppose	Retain the current environmental flow regime including current Plan allocations and a minimum flow from Waitaki Dam to the sea of 150 cumecs.		

Name	Point ID	Support/Oppose	Summary of Decision Requested	Recommendation	Reason for Recommendation
Lower Waitaki River Management Soc Inc	<a href="#">PC3 WCWARP -3209</a>	Oppose	Retain the 150 cumec minimum flow in the current plan and require all resource consents to comply. Irrigation consents requiring renewal in the interim should be given a term to 2025 and those with consents granted which expire later will be notified of an intention of a change of conditions (if required to comply with the 150min flow). On implementation of Rule 7 in the current plan, which will provide for 100% reliable irrigation up to 80 cumecs integrate all existing and pre 2006 consents into a single 1st priority bands on the replacement of existing consents. Allow the operator of the dam (Meridian Energy) to draw down Lake Pukaki up to 200mm of the 5m additional emergency storage granted by Plan Change 1 when 1:20 year or less frequent inflow event occurs in order to comply with Rule 7.	Reject	We are not persuaded that the operative provisions should be retained for the reasons given in our decision and the s42A report. See the separate narrative on this issue in the main text of the Report.
Lower Waitaki River Management Soc Inc	<a href="#">PC3 WCWARP -3196</a>	Oppose	Retain the current environmental flow regime including current Plan allocations and a minimum flow from Waitaki Dam to the sea of 150 cumecs	Reject	We are not persuaded that the operative provisions should be retained for the reasons given in our decision and the s42A report. See the separate narrative on this issue in the main text of the Report.

Rule 2(1)(b)

Name	Point ID	Support/Oppose	Summary of Decision Requested	Recommendation	Reason for Recommendation
Hunter Downs Development Company Limited	<a href="#">PC3 WCWARP -3236</a>	Support	Retain Rule 2(1) (b) as notified.	Accept	We recommend retaining the provisions as notified, for the reasons set out in the s42A report and our decision
Irricon Resource Solutions Limited (Agent)	<a href="#">PC3 WCWARP -3260</a>	Support	Retain as notified		
Irrigation New Zealand Inc	<a href="#">PC3 WCWARP -3309</a>	Support	Retain subject to any amendment to address clarification sought in reasons for submission, and in particular for the purpose of clarifying the status of 'diverts' in the context of rule 2(1)(b) and in the definition of 'Allocation Limits'		
North Otago Irrigation Company	<a href="#">PC3 WCWARP -3399</a>	Support	The amendment to Rule 2(1) (b) removing the words "or diverted" is partially supported.		
Waitaki Irrigators Collective	<a href="#">PC3 WCWARP -3356</a>	Support	Retain amendments, subject to necessary amendments to definition of "Allocation Limits".		
Waitaki Independent Irrigators Inc	<a href="#">PC3 WCWARP -3524</a>	Support	Retain subject to any amendment to address clarification sought in reasons for submission, and in particular for the purpose of clarifying the status of 'diverts' in the context of the rule, and in the definition of 'Allocation Limits'		

Table 3 line xviii

Name	Point ID	Support/Oppose	Summary of Decision Requested	Recommendation	Reason for Recommendation
Central South Island Fish and Game	<a href="#">PC3 WCWARP -3337</a>	Support	Retain as notified	Accept	For the reasons set out in the s42A report and our decision we recommend the notified provisions are retained.
Mr Alan Mark	<a href="#">PC3 WCWARP -3288</a>	Support	Retain the inclusion of the tributaries of the Awakino river in the allocation limit.		
Irricon Resource Solutions Limited (Agent)	<a href="#">PC3 WCWARP -3252</a>	Support	Retain as notified, but also include the words 'and tributaries' in Table 3 (xix)	Accept in part	For the reasons set out in the s42A report and our decision we recommend the notified provisions are retained.  With respect to the relief sought in respect of Table 3 Line xix, we consider the submission is outside the scope of Plan Change 3.

Table 3 line xvii(a)

Name	Point ID	Support/Oppose	Summary of Decision Requested	Recommendation	Reason for Recommendation
Central South Island Fish and Game	<a href="#">PC3 WCWARP -3332</a>	Oppose	Clarify the table to avoid interpretation that Schedule 2 consent holders can continue to take 100% of their allocation when flows are over and above 102m/3 /s in January.	Reject	In response to this and other submissions we have made amendments to other provisions in the plan which give effect to the relief requested (see recommended Table 3A)
Central South Island Fish and Game	<a href="#">PC3 WCWARP -3334</a>	Oppose	Clarify “calculated natural inflows above Waitaki Dam” – refer Definition submission point. Ensure that Environment Canterbury can determine <u>calculated natural inflow</u> independent of Meridian.	Accept in part	In response to this and other submissions we have made amendments to other provisions in the plan which give effect to the relief requested (see recommended amendments to the definition of Calculated Natural Inflow)

Name	Point ID	Support/Oppose	Summary of Decision Requested	Recommendation	Reason for Recommendation
Meridian Energy Limited	<a href="#">PC3 WCWARP -3472</a>	Support	Retain the amendments to Table 3, Line xvii (a) unchanged.	Accept	For the reasons set out in the s42A Report and our decision, we recommend the notified provisions are retained.
North Otago Irrigation Company	<a href="#">PC3 WCWARP -3400</a>	Support	Clarify that use of the 7 day period for the calculation of natural inflows above the Waitaki Dam in the context of amended Rule 7 is the most effective and efficient method for the purpose of implementing Policy 46, as opposed to a 30 day period.	Accept in part	For the reasons set out in the s42A Report and our decision, we recommend the notified provisions are retained. With respect to the particular relief sought in respect of Rule 7 see the recommendations under the heading “Rule 7” below.
Waitaki Irrigators Collective	<a href="#">PC3 WCWARP -3357</a>	Support	Clarify that use of the 7 day period for the calculation of natural inflows above the Waitaki Dam in the context of amended Rule 7 is the most effective and efficient method for the purpose of implementing Policy 46, as opposed to a 30 day period.		
Waitaki Independent Irrigators Inc	<a href="#">PC3 WCWARP -3525</a>	Support	Clarify that use of the 7 day period for the calculation of natural inflows above the Waitaki Dam in the context of amended Rule 7 is the most effective and efficient method for the purpose of implementing Policy 46, as opposed to a 30 day period.		

**Table 3 line xvii(c)**

Name	Point ID	Support/Oppose	Summary of Decision Requested	Recommendation	Reason for Recommendation
Central South Island Fish and Game	<a href="#">PC3 WCWARP -3335</a>	Support	Retain amendment as worded; but clarify that mahinga kai allocation is not used to enhance reliability for out of stream use, ie. if retained in river, minimum flows are increased correspondingly	Accept in part	For the reasons set out in the s42A Report we recommend the notified provisions are retained. With respect to the relief requesting that water is retained in the river where it has not been allocated for mahinga kai use, we accept in principle the relief sought – see recommended Table 3A
Alison MacTavish	<a href="#">PC3 WCWARP -3265</a>	Oppose	Reject proposal to reserve water	Reject	We have adopted a flow and level regime for the reasons set out in our recommendation, and in the section 42A report. We have reviewed the provisions in the light of all requests made, with a view to accepting those that would (having regard to the effectiveness and efficiency of the body of provisions), be most appropriate for achieving the objectives of the Waitaki Catchment Water Allocation Regional Plan (taking into account the benefits and costs of the environmental, economic, social and cultural effects anticipated from the implementation of the provisions and risks of acting or not acting), and contribute to a coherent body of provisions that would assist the CRC to carry out its functions in attaining the purpose of the RMA. In the result, we recommend some of the amendments requested and do not recommend others. Without tediously listing each, we consider that those we do not recommend would not contribute to making the provision a coherent measure that would assist the CRC as intended. The amendments we recommend are evident in the marked-up version of the Plan in Appendix B to this report.
Hunter Downs Development Company Limited	<a href="#">PC3 WCWARP -3237</a>	Support	Retain Rule 2 Table 2 row xvii(c) as publicly notified	Accept	We accept the reasons and recommendations in the s42A report and recommend that the provisions as notified are retained.
Meridian Energy Limited.....	<a href="#">PC3 WCWARP -3473</a>	Support	Retain the amendments to table 3, Line xvii (c) unchanged.		
Irricon Resource Solutions Limited (Agent)	<a href="#">PC3 WCWARP -3251</a>	Support	Retain as notified		
Aoraki Polytechnic	<a href="#">PC3 WCWARP -1281</a>	Oppose	Support reserving water but widen purpose to general environmental restoration purposes. Amend Policy 12(g) and Table 3 line xvii to give effect to the wider purpose.	Accept in part	We accept that the reservation of water for the purpose of augmenting surface water flows to Wainono Lagoon will give rise to beneficial environmental effects and is therefore appropriate, and recommend consequential changes to other provisions in the plan to give effect to this intent. With respect to the use of water for general environmental purposes, we are not persuaded that the amendment is appropriate.
Ban 1080	<a href="#">PC3 WCWARP -1136</a>	Oppose	Support reserving water but widen purpose to general environmental restoration purposes. Amend Policy 12(g) and Table 3 line xvii to give effect to the wider purpose.

## Rule 7

Name	Point ID	Support/Oppose	Summary of Decision Requested	Recommendation	Reason for Recommendation
Ban 1080	<a href="#">PC3 WCWARP -1131</a>	Oppose	Retain the requirement on the operator of the Waitaki Dam to provide water for downstream abstraction. Retain Rule 7 in the operative Plan.	Accept in part	We are not persuaded that the operative provisions should be retained for the reasons given in our decision and the s42A report. However, with respect to the relief seeking that the operator of the Dam should be required to provide water for downstream abstraction, we have adopted a flow and level regime for the reasons which addresses the relief sought.
Central South Island Fish and Game	<a href="#">PC3 WCWARP -3341</a>	Oppose	Fish and Game seeks a) an amendment to the definition of 'Calculated natural inflow' (see separate submission point) b) replacement of 182m3/s with 150m3 /s to read '...the average for the preceding seven day period is less than 150m3 /s' Amend Table 6 with requested wording. Add a new clause to Rule 7 to the effect ' <u>While the operator of Waitaki Dam may elect to do so, there is no requirement for the operator to provide additional flow when natural inflows to Waitaki Dam are outside the band specified in Table 6.</u>	Accept in part	With respect to clause (a) of the relief sought, we have recommended a change to the effect requested.  With respect to clause (b) of the relief sought, we have adopted a stepped flow regime which takes into account calculated natural inflows into the Waitaki Dam and amended the flow regime accordingly.  With respect to the new clause requested – we do not consider it is a more effective and efficient means of achieving the objectives of the Waitaki Catchment Water Allocation Regional Plan, or for giving effect to the superior instruments.
Waitaki Irrigators Collective	<a href="#">FPC3 WCWARP -331</a>	Oppose			
Hunter Downs Development Company Limited	<a href="#">FPC3 WCWARP -354</a>	Oppose			
Forest and Bird	<a href="#">PC3 WCWARP -3532</a>	Oppose	Do not amend Rule 7.	Reject	We are not persuaded that the operative provisions should be retained for the reasons given in our decision and the s42A report.
Central South Island Fish and Game	<a href="#">FPC3 WCWARP -22</a>	Support			
Hunter Downs Development Company Limited	<a href="#">PC3 WCWARP -3241</a>	Oppose	Retain Rule 7 as notified with this amendment: , <u>except that when the mean of the calculated natural inflows above the Waitaki Dam for the average of the proceeding 7 day period is less than 182m/3/s, the maximum flow required to be provided shall be a flow equivalent to the difference between the calculated natural inflows for the average of the proceeding 7 day period, and 150m/3 /s. No flows shall be required to be provided during any period when the calculated natural inflows for the average of the proceeding 7 day period equals, or is less than 150m/3 /s.</u>	Accept in part	With respect to the relief sought we have adopted a stepped flow regime which takes into account calculated natural inflows into the Waitaki Dam and amended the flow regime accordingly.
Central South Island Fish and Game	<a href="#">FPC3 WCWARP -17</a>	Support			

Name	Point ID	Support/Oppose	Summary of Decision Requested	Recommendation	Reason for Recommendation
Irrigation New Zealand Inc	<a href="#">PC3 WCWARP -3308</a>	Oppose	Clarification/confirmation of whether use of the 7 day period for the calculation of natural inflows above the Waitaki Dam in the context of amended Rule 7 is the most effective and efficient method for the purpose of implementing Policy 46, as opposed to a 30 day period.	Reject	A general request which does not give precise details of amendments requested.
Irrigation New Zealand Inc	<a href="#">PC3 WCWARP -3312</a>	Oppose	Amend Rule 7 to read: , except that no <u>additional</u> flows shall be required to be provided during any period when the mean of the calculated natural inflows above the Waitaki Dam for the average of the preceding seven day period is less than 182m <sup>3</sup> /s”	Accept in part	In response to this and other submissions we are recommending amendments to give effect to some of the relief sought.
Meridian Energy Limited.....	<a href="#">PC3 WCWARP -3477</a>	Oppose	Amend Rule 7 and Table 6 with alternative phrasing provided.	Accept in part	In response to this and other submissions we are recommending some amendments to the give effect to the relief sought. See also the separate narrative on these issues in the main text of the Report.
<i>Waitaki Irrigators Collective</i>	<a href="#">FPC3 WCWARP -15</a>	<i>Part Support</i>

Hunter Downs Development Company Limited	<a href="#">PC3 WCWARP -3548</a>	Support	Retain as notified.	Reject	As a consequence of directed caucusing and/or discussion at the Hearing, further proposed changes were agreed between some parties and to the extent, and for the reasons set out in the s42A report and our narrative, we have adopted those recommended changes.
North Otago Irrigation Company	<a href="#">PC3 WCWARP -3402</a>	Support	Retain as notified.		
Waitaki Irrigators Collective	<a href="#">PC3 WCWARP -3360</a>	Support	Retain as notified.		

Clause 4 of Rule 8 (renumbered as Clause 4A in the Plan Provisions as recommended by the Hearing Panel)

Name	Point ID	Support/Oppose	Summary of Decision Requested	Recommendation	Reason for Recommendation
Central South Island Fish and Game	<a href="#">PC3 WCWARP -3342</a>	Support	Retain new Clause (4) as worded.	Accept	We adopt the recommendations and reasons set out in the section 42A Report, except that we have made consequential amendments to the numbering of this provision.
Irrigation New Zealand Inc	<a href="#">PC3 WCWARP -3313</a>	Support	Retain as notified		
North Otago Irrigation Company	<a href="#">PC3 WCWARP -3404</a>	Support	Retain as notified		
Waitaki Irrigators Collective	<a href="#">PC3 WCWARP -3362</a>	Support	Retain as notified		
Waitaki Independent Irrigators Inc	<a href="#">PC3 WCWARP -3541</a>	Support	Retain as notified		

Rule 15

Name	Point ID	Support/Oppose	Summary of Decision Requested	Recommendation	Reason for Recommendation
Central South Island Fish and Game	<a href="#">PC3 WCWARP -3343</a>	Support	The amendments proposed are supported subject to the recommended change to Policy 47.	Accept in part	We adopt the recommendations and reasons set out in the section 42A Report.
Forest and Bird	<a href="#">PC3 WCWARP -3533</a>	Oppose in Part	Retain operative Rule 15 so that hydro-generation remains a fully discretionary activity.	Reject	We are not persuaded that the operative provisions should be retained for the reasons given in our decision and the s42A report.
Irrigation New Zealand Inc	<a href="#">PC3 WCWARP -3315</a>	Support	Retain as notified	Accept in part	Except that, in response to other submissions, we recommend the provisions as notified are retained, for the recommendations and reasons as set out in the section 42A Report.
North Otago Irrigation Company	<a href="#">PC3 WCWARP -3406</a>	Support	Retain as notified		
Waitaki Independent Irrigators Inc	<a href="#">PC3 WCWARP -3540</a>	Support	Retain as notified		
Waitaki Irrigators Collective	<a href="#">PC3 WCWARP -3366</a>	Oppose	Retain as notified, subject to any amendment needed to clarify the status of 'diverts' in the context of Rule 2(1)(b).	Accept in part	Except that, in response to other submissions, we recommend the provisions as notified are retained, for the recommendations and reasons as set out in the section 42A Report.  With respect to the relief seeking clarification of ‘diversions’ in respect of Rule 2(1)(b), see our previous commentary on this matter.
Meridian Energy Limited.....	<a href="#">PC3 WCWARP -3478</a>	Support	Retain the amendment to Rule 15 unchanged.	Accept in part	Except that, in response to other submissions, we recommend the provisions as notified are retained, for the recommendations and reasons as set out in the section 42A Report.

Rule 15A

Name	Point ID	Support/Oppose	Summary of Decision Requested	Recommendation	Reason for Recommendation
Meridian Energy Limited.....	<a href="#">PC3 WCWARP -3480</a>	Oppose	Amend Rule 15A to read: “Any activity that complies with Rules 2, 3, 6 and 7 and is the subject of an existing consent to take, dam, divert or use water for hydro-electricity generation is a <del>restricted discretionary controlled activity</del> . <u>The exercise of discretion is restricted to <b>Control is reserved</b> over the following matters...</u> ”	Accept in part	We adopt the recommendations and reasons set for a controlled activity status as set out in the section 42A Report and as described in our narrative. With respect to the wording of these provisions, we have recommended some changes as a result of responses received to questions and directions from the panel to improve clarity.  See also the separate narrative on this issue in the main body of the report.

### Rules 21, 21A, 22 and 23

Name	Point ID	Support/Oppose	Summary of Decision Requested	Recommendation	Reason for Recommendation
Irrigation New Zealand Inc	<a href="#">PC3 WCWARP -3314</a>	Support	Retain as notified	Accept	We adopt the recommendations and reasons set out in the section 42A Report, except that we have made consequential amendments to the numbering of the clauses referred to in this provision.
North Otago Irrigation Company	<a href="#">PC3 WCWARP -3407</a>	Support	Retain as notified		
Waitaki Irrigators Collective	<a href="#">PC3 WCWARP -3364</a>	Support	Retain as notified		
Waitaki Independent Irrigators Inc	<a href="#">PC3 WCWARP -3542</a>	Support	Retain as notified		

### Rule 25

Name	Point ID	Support/Oppose	Summary of Decision Requested	Recommendation	Reason for Recommendation
Irrigation New Zealand Inc	<a href="#">PC3 WCWARP -3316</a>	Support	Retain as notified	Reject	We are persuaded that the operative provisions should be retained for the reasons given in our decision and the s42A report.
North Otago Irrigation Company	<a href="#">PC3 WCWARP -3408</a>	Support	Retain as notified		
Waitaki Irrigators Collective	<a href="#">PC3 WCWARP -3365</a>	Support	Retain as notified		
Waitaki Independent Irrigators Inc	<a href="#">PC3 WCWARP -3543</a>	Support	Retain as notified.		
Lower Waitaki River Management Soc Inc	<a href="#">PC3 WCWARP -3215</a>	Oppose	Specify the timeline for consent holders to comply with all flow provisions in Rule 2. It may be necessary to review the timeline if it is impossible to require Meridian Energy Ltd. to deliver irrigation demand downstream of the Waitaki Dam before their consent expires in 2025.	Reject	With respect to the relief requesting a review of Meridian’s consent prior to 2025, we discuss the issues surrounding this matter in our narrative.

### Definition for calculated natural inflow

Name	Point ID	Support/Oppose	Summary of Decision Requested	Recommendation	Reason for Recommendation
Central South Island Fish and Game	<a href="#">PC3 WCWARP -3345</a>	Oppose	'Calculated natural inflows' be amended to read 'Calculated natural inflows above Waitaki Dam' and defined as follows: 'The combined natural inflows into lakes Tekapo, Pukaki and Ohau plus the flows from the Ahuriri River and all other contributing catchments upstream from Waitaki Dam'.	Reject	We adopt the recommendations and reasons set out in the section 42A Report. Consequential changes are being recommended as appropriate.
Forest and Bird	<a href="#">PC3 WCWARP -3534</a>	Oppose	Amend definition to include a factor that accounts for loss of runoff from the rest of the catchment including all the contributing catchments upstream from the Waitaki Dam .	Reject	We are not persuaded that the amendment requested would be a more effective and reasonably practicable option for achieving the objectives of the Waitaki Catchment Water Allocation Regional Plan, and for giving effect to the relevant superior instruments.
Lower Waitaki River Management Soc Inc	<a href="#">PC3 WCWARP -3216</a>	Oppose	Include a factor that accounts for loss of runoff from the rest of the catchment or lower the threshold used in Table 3 line x vii (a).  Reinstate ECans authority to determine when calculated natural flow thresholds are breached.	Accept in part	We reject the relief requesting for an amendment to the definition that would account for runoff from the catchment on that the basis that it is not a more effective and reasonably practicable option for achieving the objectives of the Waitaki Catchment Water Allocation Regional Plan, and for giving effect to the relevant superior instruments.  With respect to that part of the relief seeking that the CRC retain authority for determining calculated natural inflows, we recommend a change to the effect requested.
Meridian Energy Limited	<a href="#">PC3 WCWARP -3479</a>	Support	Retain the definition of "calculated natural inflows" unchanged.	Reject	We adopt the recommendations and reasons set out in the section 42A Report. Consequential changes are being recommended as appropriate.

### Schedule 1 (renumbered as Schedule 2 in the Plan Provisions as recommended by the Hearing Panel)

Name	Point ID	Support/Oppose	Summary of Decision Requested	Recommendation	Reason for Recommendation
Central South Island Fish and Game	<a href="#">PC3 WCWARP -3346</a>	Oppose	Delete Method 1. Amend Method 2 to read “ <u>and has been field validated by the Regional Council (or an independent consultant appointed by the Regional Council)...</u> ” Amend Method 2 by adding words to the effect that “ <u>The Regional Council reserves its powers to review consent applications including any seasonal irrigation requirement obtained through use of Method 2 with its assessment of requirement obtained using Method 3 and restricting the application to the lesser allocation estimate. Furthermore the Council will effect identification and ground proofing of the proposed irrigation area</u> ”  Amend Method 2a to read " <u>A combined water distribution and application efficiency greater than 80%</u> ". Make consequential amendment in Definition - Total seasonal demand Retain Method 3, subject to any amendments needed to provide above relief.	Reject	We adopt the recommendations and reasons set out in the section 42A Report. .
<i>Waitaki Irrigators Collective</i>	<a href="#">FPC3 WCWARP -338</a>	<i>Oppose</i>			
<i>Hunter Downs Development Company Limited</i>	<a href="#">FPC3 WCWARP -355</a>	<i>Oppose</i>			

Name	Point ID	Support/Oppose	Summary of Decision Requested	Recommendation	Reason for Recommendation
Irrigation New Zealand Inc	<a href="#">PC3 WCWARP -3318</a>	Support	Retain as notified	Accept	For the reasons set out in the section 42A Report, we recommend that the notified provisions are retained.
North Otago Irrigation Company	<a href="#">PC3 WCWARP -3410</a>	Support	Retain as notified		
Waitaki Irrigators Collective	<a href="#">PC3 WCWARP -3367</a>	Support	Retain as notified		
Waitaki Independent Irrigators Inc	<a href="#">PC3 WCWARP -3545</a>	Support	Retain as notified.		

## Schedule 2 (renumbered as Schedule 3 in the Plan Provisions as recommended by the Hearing Panel)

Name	Point ID	Support/Oppose	Summary of Decision Requested	Recommendation	Reason for Recommendation
Central South Island Fish and Game	<a href="#">PC3 WCWARP -3347</a>	Oppose	Support however clarify whether the total figure is 48m/3 /s or 52m/3/s.	Reject	A general request which is not precise in the relief sought.
Federated Farmers Combined Canterbury Branch	<a href="#">PC3 WCWARP -3296</a>	Oppose	Delete Schedule 2 and make necessary amendment to instead refer to ‘consents authorised before the plan became operative in 2006’.	Accept in part	We do not recommend deletion of Schedule 2, but consider it appropriate to include reference to consents that were authorised before the plan became operative, and have recommended further amendments to the table to give effect to that relief.
Genesis Power Limited, Wellington	<a href="#">PC3 WCWARP -3547</a>	Oppose	Amend first sentence of Schedule 2 to read (or similar): <i>Existing consents downstream of the Waitaki Dam referred to in this Plan (including in Policy 47) are listed in this schedule. .</i>	Accept	In response to this and other submissions we are recommending an amendment to the effect requested.
Nga Rūnanga and Te Rūnanga O Ngāi Tahu	<a href="#">PC3 WCWARP -3453</a>	Support	Delete Schedule 2 OR If schedule 2 is retained amend so that it includes the following: CRC940477; CRC962154.1; CRC982133; CRC132624; CRC061931; CRC952149 AND Any other consequential amendments	Accept	In response to this submission we are recommending an amendment to the effect requested.
North Otago Irrigation Company	<a href="#">PC3 WCWARP -3411</a>	Oppose	Delete Schedule 2	Reject	We are not persuaded that the amendment requested would be a more effective and reasonably practicable option for achieving the objectives of the Waitaki Catchment Water Allocation Regional Plan, and for giving effect to the relevant superior instruments.
Waitaki Independent Irrigators Inc	<a href="#">PC3 WCWARP -3546</a>	Oppose	Delete Schedule 2.		
<i>Central South Island Fish and Game</i>	<a href="#">FPC3 WCWARP -21</a>	<i>Oppose</i>			
Waitaki Irrigators Collective	<a href="#">PC3 WCWARP -3368</a>	Oppose	Delete Schedule 2.		
Irrigation New Zealand Inc	<a href="#">PC3 WCWARP -3319</a>	Oppose	Delete Schedule 2
